ALLIANZ BUSINESS SYSTEM

ABS is an inventory management system used globally within the Allianz group. ABS is developed as inventory management system for (large) insurance companies. The Allianz Business System (ABS) is an integrated insurance system based on an enterprise data model and comprises a fully integrated CRM system. It covers all lines of business and all insurance specific business processes. Working as Systems Analyst for the ABS implementation of Germany (ABS Kraft). The ABS Kraft caters the functionalities concerning the automobile insurance. The system helps in Kraft contract management with the help of various pre-defined business transactions.

FULL MATERIAL DISCLOSURE SUPPLIER PORTAL

FMD supplier portal is used by the hardware suppliers of one of the world's largest technology company which manufactures mobile phones, tablets, laptops and pcs. This project is the backbone of the company's go green initiative to the world and it ensures through this way that none its products uses any harmful materials like lead or cadmium. Suppliers uses this web portal to disclose the details of products/components they are supplying with lab reports stating the materials content readings to the company. Once verified the procurement process will begin.
